Tech isn't optional anymore.

The kids who **understand** it?

They're already ahead ↪

↺ REPOST

Here's what

Early tech education builds:

- Problem-solving
- Focus
- Creativity

Studies show:

Kids who learn logic early
perform better in math, reading,
and even emotional regulation.

Swipe ↗

Most coding apps?

- ✗ Rigid
- ✗ Boring
- ✗ Built for older kids

They teach like school.
But kids learn **best through play.**

Swipe ↪

That's why we made Tech Adventures with **Betty**.

A fun, story-based app where kids **6-11 learn:**

- Loops
- Functions
- Debugging
- Sequencing

All by playing

But it's not just about tech.

It's about mindset:

- Try again when it's hard
- Celebrate small wins
- Stay curious

Those **habits** shape everything.

Tinodiwanashe Nguruve

Tech isn't just about screens

It's about how your **child thinks**.

And thinking like a coder?
That's a superpower.
